Waterloo Uncovered in Waterloo (Archaeological Excavation)

Student/Intern/Volunteer

Participated for 11 days in an archaeological excavation at Hougoumont Farm, in Waterloo. Tasks included (lots of) physical digging, creating trenches, plotting 3GIS (GPS) Coordinates of the landscape and the findings, which were put in a 3D interactive map, photographing finds. The unique aspect of Waterloo Uncovered is not that it is just an extraordinary excavation at Waterloo, but that it provides a rehabilitation possibility for Veterans; many British, French, Belgian and Dutch veterans participated in the excavation, which certainly enriched the experience that I had.

8 January 2019 – 11 May 2019

Academic Support Program for Student Athletes (ASPSA)

Tutor

Main task involved conducting one-on-one or group sessions with Student Athletes enrolled at NCSU, which entailed assisting the student with their course work, as well as aiding them with any additional questions without providing the answers for the student. The student was guided towards improving their performance through probing questions and comprehensive examples.

Leadership Experience

7 November 2018 -

Graduate Student Association

Graduate Student Representative

As a GSA-Rep, my main task was representing the HGSA (Historical Graduate Student Association), and relaying important information back to the constituents.

7 November 2018-

Teaching Effectiveness Committee (TEC)

Committee Member

The Committee's primary task was organizing the Teacher Awards, which is an award meant to stimulate student teachers (Teaching Assistants, Lab assistants, etc.) and to reward the efforts of outstanding student teachers.
